

Want to learn more about IM & health?

Student Testimonials:

"I valued the fact that this class made me think outside of the box about how to approach medical diagnosis. Also, from completing this course I realized that I have a knack for Eastern medicine and want to incorporate it in my medical journey."

"I like how this class promoted thinking and it changed my perspective on medicine. I learned a lot about integrative medicine. [We had] good demonstrations and [it was] really insightful!"
